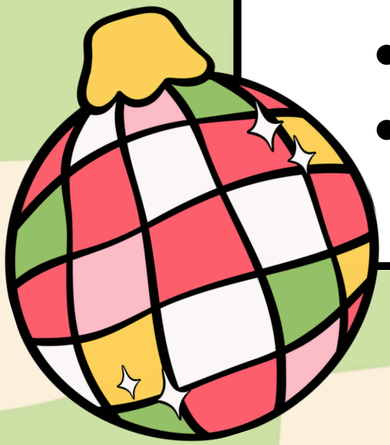
3D Paper Star Ornament

3D Paper Star Ornament

What You'll Need:

Colored paper (any kind you like)
Scissors
Glue stick
String or ribbon
A hole punch

Instructions


- Cut out 5 identical star shapes from colored paper (on the last page print the star template)!
- Fold each star in half down the middle (vertically) to create a crease.
- Glue the halves of two stars together, repeat until all 5 stars form a 3D shape.
- Punch a hole at the top of one star and thread a piece of string or ribbon through.
- Tie the string into a loop, and your ornament is ready to hang!
- Perfect for decorating the Christmas tree or a festive room!
